NASA SEWP VI

Solutions for Enterprise-Wide Procurement

The NASA SEWP (Solutions for Enterprise-Wide Procurement) VI GWAC (Government-Wide Acquisition Contract) provides the latest in Information Technology (IT) products and services for all Federal Agencies and their approved Contractors. The statutory authority allowing usage of the SEWP contracts by the entire Federal Government is NASA's designation as an Executive Agent by OMB based on the Information Technology Management Reform Act (ITMRA) of 1996, now the Clinger Cohen Act.

NASA SEWP VI is comprised of over 2000 pre-competed Prime Contract Holders. The Fair Opportunity Clause, FAR 16.505(b)(1), provides that each Contractor shall be given fair opportunity to be considered for each order exceeding \$10,000 and issued under multiple award contracts. The FAR states that the method to obtain fair opportunity is at the discretion of the CO and that the CO must document the rationale for placement and price of each order. The SEWP online Quote Request Tool (QRT) is the recommended method to assist in this activity and to augment the required decision documentation. The SEWP QRT will automatically include the Contractors within a selected Category or based on a suggested source.

Through NASA SEWP VI, agencies can access a wide range of advanced commercial technology, including desktops, laptops, servers, network equipment, storage systems, security tools, tablets, and cloud based services. SEWP VI also offers installation, maintenance and other professional integration services related to in-scope technology products. Access to these solutions are available to all Federal Agencies.

Key Benefits of the NASA SEWP VI GWAC:

- Only takes 24 hours to add new products.
- Can be as few as two days to turn around RFQ responses.
- Used by all Federal departments and agencies and authorized support services for Contractors.
- SEWP surcharge for all orders is 0.34% – no cap.

NASA SEWP VI Ordering Guide

Delivery Orders MUST be routed through SEWP Orders. Alvarez can deliver your order on your behalf to SEWP Orders if necessary. Delivery orders are processed within one business day of receipt and electronically forwarded to the Contractor via SEWP Orders. All contract modifications must also be routed to the Contractor via NASA SEWP.

- To obtain a quote for product or services on our NASA SEWP contract please call (877) 739-7289, or email info@alvarezit.com.
- E-Mail PDF Orders to: sewporders@sewp.nasa.gov
- FAX order forms to: (301) 286-0317
- Mail order forms to: SEWP Program Office 10210 Greenbelt Road Suite #270 Lanham, MD 20706
- Questions/concerns regarding your order should be directed to your Contract Holder POC. You may also call (877) 739-7289, or email info@alvarezit.com.

What's in Scope for SEWP VI?

SEWP VI is designed to provide a broad suite of Information Technology, Communication and Audio Visual (ITC/AV) solutions and services. Technology is ever-evolving, and for that reason SEWP's processes enable Contractors to add new commercial technology and IT services to their contract daily, as requested by Customers. The focus of SEWP is on the full suite of technology offerings that simplify Governmental access and industry offerings across the entire ITC/AV solutions and services landscape. SEWP VI is composed of three (3) scope categories detailed below. If you would like SEWP to determine if your requirement is within scope of the SEWP VI contract, please send an overview and/or bill of materials (BOM) to help@sewp.nasa.gov and we will quickly review and provide feedback.

The SEWP VI contracts were awarded by scope category. The three categories are:

- **Category A** - ITC/AV Solutions
- **Category B** - Enterprise-Wide ITC/AV Service Solutions
- **Category C** - Mission-Based ITC/AV Service Solutions
